

FLOW LINE CHANNELING IS THE SOLUTION

Using cutting edge equipment Channel Islands Sidewalk Grinding can drill a channel down the flow line to restore proper water drainage.

BENEFITS

- Channeling is clean, fast & effective
- R&R of curb & gutter is not required
- Less than half the cost of R&R
- Will not damage sub grade
- Doesn't impede traffic or residents access

WEST NILE VIRUS

- #1 PREVENTION METHOD = REMOVE STANDING WATER
- California 2005:
928 human infections
28 fatalities
- Residents and cities alike have the responsibility of eliminating mosquito breeding sites from the property.

KEEP THE CURB & GUTTER

DRAIN THE STANDING WATER!
